

PUMP SUPPORT SYSTEMS LTD

Introduction

PUMP SUPPORT SYSTEMS LTD a subsidiary of Ceetak Engineering Ltd.

Our aim is to provide independent, high quality and competitive Pump and Valve services to a wide range of commercial industries.

As well as having a fully equipped workshop for all repair work we can also undertake site work utilising our own directly employed mobile service engineers who have many years of experience working with pumps and associated equipment in a variety of locations and businesses.

If you are looking for a reliable and fully skilled company to supply or maintain your Pump and Valve systems, please browse our web site to find out more about our comprehensive services, or contact us to discuss your requirements in more detail.
