

COMPLETE OVERHAUL & REPAIR

Our workshops are equipped to carry out at short notice, major and minor overhauls and repairs for all types of rotating equipment. All work undertaken is guaranteed and a detailed inspection report is provided.

SITE MAINTENANCE & SHUTDOWNS

To assist with short periods of process downtime, we offer planned maintenance contracts and scheduled repair work for factory shutdowns. All our engineers are available and trained to work on a wide variety of process installations.

NEW EQUIPMENT

With extensive experience of equipment manufacturers and the requirements of process systems, we are able to evaluate the best technical and commercial alternatives for your plant.

24 HOURS A DAY 365 DAYS A YEAR

As the process industry operates around the clock, 365 days a year so does our pump support service. Whenever you need engineering support call the Emergency Hot-line. Your message will be directly transferred to a duty engineer who will respond immediately, any time, day or night.

TOTAL SUPPORT FUNCTION

Ceetak's 'Total Support' function includes, commissioning engineers, performance testing, fault diagnosis, condition monitoring and more.

Services 2

SINGLE SOURCE SUPPLY

Ceetak Engineering Ltd are unique in being able to trade with all manufacturers, providing technical and commercial advantage.

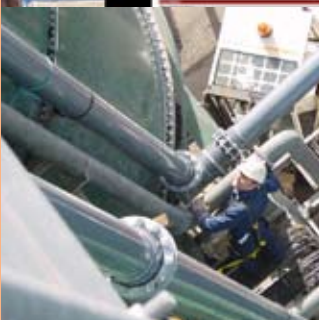

INVENTORY RATIONALISATION

All too often stock holdings can rise above acceptable levels. We will assist in the evaluation of inventory to reflect installed units and how critical to process.

TOTAL MANAGEMENT CONCEPT

When expanding the level of support we offer, Ceetak are able to provide personnel on site to manage or implement site maintenance. With our SmartPart software we can also provide technical data, operating costs and failure mode analysis, to support our contract.

TURNKEY PROJECTS

To ensure continuity of supply, we can offer civil mechanical and electrical project work for a wide variety of installations.

LOCATION NETWORK

Our network of strategically placed service centres are all fully equipped to carry out our full range of services, ensuring continuity of service no matter where our clients are based.
